

Order	Date			Contents	page
	A	B	C		
1	2/18	2/20	2/21	1. Review of the Experimental Techniques from Last Semester 2. Safety and Rules in the Laboratory	
2~3	2/25 3/4	2/27 3/6	A or B 3/7	Esterification	1
				Preparation of Methyl Benzoate	
				Separation and Purification of Methyl Benzoate	
4	3/11	3/13	3/14	Nitration of Aromatic Compounds	11
				Synthesis of Methyl m-Nitrobenzoate from Methyl Benzoate	
5	3/18	3/20	3/21	Hydrolysis	23
				Hydrolysis of Methyl 3-Nitrobenzoate	
6	3/25	3/27	3/28	Reaction of Ketones	34
				Preparation of 1-Phenylethanol from Acetophenone	
7~8	4/1 4/8	4/3 4/10	4/4 4/11	Product Identification in Experiment 4 by FTIR	
				Iodoform Test for Methyl Ketones	44
				Ps. 4/7~4/8 Inter-university Activity Day (suspended)& 4/3~4/4 Holidays	
9	4/15	4/17	4/18	Discussion	
				Presentation for Previous Five Experiments	
10~11	4/22 4/29	4/24 5/1	4/25 5/2	Aldol Condensations	49
				Synthesis of Dibenzalacetone	
				Purification and Identification of Product	
12~13	5/6 5/13	5/8 5/15	5/9 5/16	Bisulfite Test for Carbonyl Groups	54
				Mid-term Examination	
				Benzoin Condensation	63
				Preparation of Benzoin from Benzaldehyde by Catalyst Thiamine	
14	5/20	5/22	5/23	Purification and Identification of Product	
				Hofmann Rearrangement	75
15	5/27	5/29	A or B	Preparation of Anthranilic Acid	
				Dyes & UV Test	81
16	6/3	6/5	6/6	Preparation of Methyl Orange	
				Discussion	
17	6/10	6/12	6/13	Presentation for the Latest Five Experiments after the Previous Presentation	
				Make-up Presentation & Final Cleaning	
18	6/17	6/19	6/20	Final Exam & Discussion of Final examination
